## **INDEPENDENT AUDITOR'S REVIEW REPORT**

**To the members of AKD Capital Limited**

**Report on review of Condensed Interim Financial Statements**

### **Introduction**

We have reviewed the accompanying condensed interim statement of financial position of AKD Capital LIMITED ("the Company") as at 31 December 2019 and the related condensed interim statement of profit or loss and other comprehensive income, condensed interim statement of changes in equity, condensed interim statement of cash flows and notes to the financial statements for the six-month period then ended (here-in-after referred to as "condensed interim financial statements"). Management is responsible for the preparation and presentation of these interim financial statements in accordance with accounting and reporting standards as applicable in Pakistan for interim financial reporting. Our responsibility is to express a conclusion on these financial statements based on our review. The figures of the condensed interim statement of profit or loss and other comprehensive income for the three-month period ended 31 December 2019 and 31 December 2018 have not been reviewed and we do not express a conclusion on them as we are required to review only the cumulative figures for the six-month period ended 31 December 2019.

### **Scope of Review**

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### **Conclusion**

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed interim financial statements are not prepared, in all material

## 12. RECOGNIZED FAIR VALUE MEASUREMENTS - FINANCIAL ASSETS

### i. Fair value hierarchy

Judgments and estimates are made in determining the fair values of the financial instruments that are recognized and measured at fair value in these condensed interim financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into the following three levels. An explanation of each level follows underneath the table.

Recurring fair value measurements at 31 December 2019	Level 1 Rupees	Level 2 Rupees	Level 3 Rupees	Total Rupees
<b>Financial assets</b>				
Investments at 'fair value through other comprehensive income'	<u>27,933,206</u>	-	<u>98,000</u>	<u>28,031,206</u>

Recurring fair value measurements at at 30 June 2019	Level 1 Rupees	Level 2 Rupees	Level 3 Rupees	Total Rupees
<b>Financial assets</b>				
Investments at 'fair value through other comprehensive income'	<u>26,826,940</u>	-	<u>98,000</u>	<u>26,924,940</u>

The above table does not include fair value information for financial assets and financial liabilities not measured at fair value if the carrying amounts are a reasonable approximation of fair value. Due to short term nature, carrying amounts of certain financial assets and financial liabilities are considered to be the same as their fair value. For the majority of the non-current receivables, the fair values are also not significantly different to their carrying amounts.

There were no transfers between levels 1 and 2 for recurring fair value measurements during the six month period ended 31 December 2019. Further there was no transfer in and out of level 3 measurements.

The Company's policy is to recognize transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

**Level 1:** The fair value of financial instruments traded in active markets (such as publicly traded derivatives, and trading and available-for-sale securities) is based on quoted market prices at the end of the reporting period. The quoted market price used for financial assets held by the Company is the current bid price. These instruments are included in level 1.

**Level 2:** The fair value of financial instruments that are not traded in an active market (for example, over-the-counter derivatives) is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

**Level 3:** If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities.

### ii. Valuation techniques used to determine fair values

Specific valuation techniques used to value financial instruments include the use of quoted market prices or dealer quotes for similar instruments and the fair value of the remaining financial instruments is determined using discounted cash flow analysis.
